

## Revive MS Support

### Posts

---

Post 1: Specialist MS Nurse (21-28 hours)

Post 2: Revive MS Connect Co-ordinator (21-28 hours)

An exciting couple of opportunities have opened up at Revive MS Support; a Charity which specialises in providing a wide range of clinical support and treatment to people living with Multiple Sclerosis (MS). Successful candidate(s) would be joining a multi-disciplinary team led by a Clinical Manager.

Candidates should have a neurological background, ideally with experience of MS, however specialist training from the MS Trust will be provided.

Post 1 - Is an established position within Revive, providing critical assessment and support to clients and carers and is open to registered nurses. The post holder will liaise closely with community and NHS teams.

Post 2 - Is a newly funded position that will be focussed on the project planning, delivery and evaluation of our wide and varied web-based services nationally across Scotland. This innovative development will allow Revive MS to extend service provision to both clients and carers within Scotland.

Post 2 - There is the opportunity to combine both posts for a suitable candidate with a registered nursing background, allowing it to be a full time (37.5 hours) post, however the post is open to anyone with a qualification in nursing or registered AHPs (21-28 hours).

### Salary

---

Post 1 - Specialist MS Nurse - Band 6 (Agenda for Change)

Post 2 - Revive MS Connect Co-ordinator – Band 5 (Agenda for Change)

Closing date: 20<sup>th</sup> September 2021
